In the speech of Mr. Watson Liew, he mentioned that he was extremely honored to conduct this international cooperation and also expressed his great enthusiasm for the integration of business resources with MIDA platform and SWGI. Furthermore, he hoped through this association could continuously stimulate more diversified and international financial education, professional training courses that cater the market needs, and ultimately to make a positive contribution to talent development. "We hope that through this cross-enterprise collaboration able to generate more mature and sophisticated investors which will be able to use their professional knowledge and skills to determine the proper allocation of investment and thus profit from the billion-dollar market with the least risk," said Mr. Bright Kim, the CEO of Star Wealth Group Inc.

The billion-dollar market, opportunities, and reefs; learn to implement the right knowledge on risk control and asset allocation is the number one rule of smart investment. "Training presents a prime opportunity to expand the knowledge base of all individuals, provides both the individual and organizations as a whole with benefits that make the cost and time a worthwhile investment. The return on investment from training and development is really a no-brainer," said Mr. Morgan Matthews, the Business Director of MIDA.

EliteBiz Academy Limited courses are outlined with the aim to enhance the professional knowledge and practical skills in the financial market to all levels of individuals. SWGI and MIDA will work closely with EB to impart knowledge and provide relevant support, such as real market trading strategies and successful case studies in order to achieve the visions of this collaboration. In addition, the parties will also promote the curriculum through different channels and actively explore high-end international financial training programs and strive to cultivate professional talents and contribute to the development of the global financial market.

This is a particularly astonishing collaboration between the multinational companies, with future development and cooperation plans with the focus on Asia and other emerging markets. This collaboration involves joint research and effort in finance, macroeconomics, asset management, and education sectors. The parties also pledged to leverage the resources of the industry to create a high-end financial training program for business leaders in a diversified market to jointly demonstrate and enhance academic and social influence in the financial market.
